

GAINFY

NEW ERA OF HEALTHCARE

The information set forth herein does not purport to be complete and no obligation to update or otherwise revise such information is being assumed. Certain statements, projections or other estimates herein (including estimate of value, returns or performance) are forward-looking statements and are based upon certain assumptions. Other events that were not taken into account may occur and may significantly affect the analysis. Any assumptions should not be construed to be indicative of the actual events that will occur.

No person may treat this presentation as constituting either an offer to sell, or a solicitation of an offer to buy, any interest in the company. A prospective subscriber must rely solely on the terms of, and disclosure of information in the Subscription Agreement; the only basis on which subscriptions may be made. Each prospective subscriber of the company offering will be required to execute the agreement to effect a subscription of the company offering.

The company is a high-risk subscription vehicle which is available only to qualified individuals or entities that are willing to assume above average risk and limited liquidity with a portion of their net worth. There may be no guarantee that the company's subscription objectives will be achieved and the entire loss of principal may occur. Please refer to the company's Subscription Agreement for additional information regarding risks and conflict of interest.

Market

The US healthcare is large and massively inefficient **\$3.35 trillion market** and growing

Problem

1 in 5

Americans going without
Healthcare

1/2

The world's population
lacks essential health
services

Biggest Challenges of Healthcare

Access to urgent care

Health data management

Identity and security protection

Why?

Cost of care is high

Access to doctors is slow

No easy way exists to own, manage and monetize your health data

Solution

Blockchain + AI + IoT =
healthcare platform for
Enterprise clients and
the global Consumers

1. Upto 20 minutes of free digital urgent care or secondary medical opinion
2. Secure access to personal health data
3. Financial rewards for staying healthy and sharing anonymous medical data

Products

GainfyCare™ - HIPAA-compliant messaging and video platform for medical opinion, access and sharing of medical records, lab orders, identity verification, tokenized incentive rewards

GainfyDoc™ - HIPAA-compliant platform for storage, management, expiring credentials alerts and sharing of Providers documents and medical credentials, eliminating paperwork and staying compliant.

GainfyPay™ - Secure platform and solution for digital and crypto payments designed for a effortless processing of transactions of fiat and digital currency.

GainfyMarketplace™ - - Platform for Users to earn and redeem GAINCASH tokens by selling and purchasing products and services, such as: anonymized clinical data, insurance discounts, e-commerce, pharmacies, health brands vendors, affiliate Apps/partners, device manufactures, financial services, medical device, and more.

GainfyEnterprise™ - Intelligent automation and workflow platform for Enterprise improving operations, care delivery, customer outcomes and lowering costs.

Results

**SAVE
TIME & MONEY**

with free help
anywhere & anytime

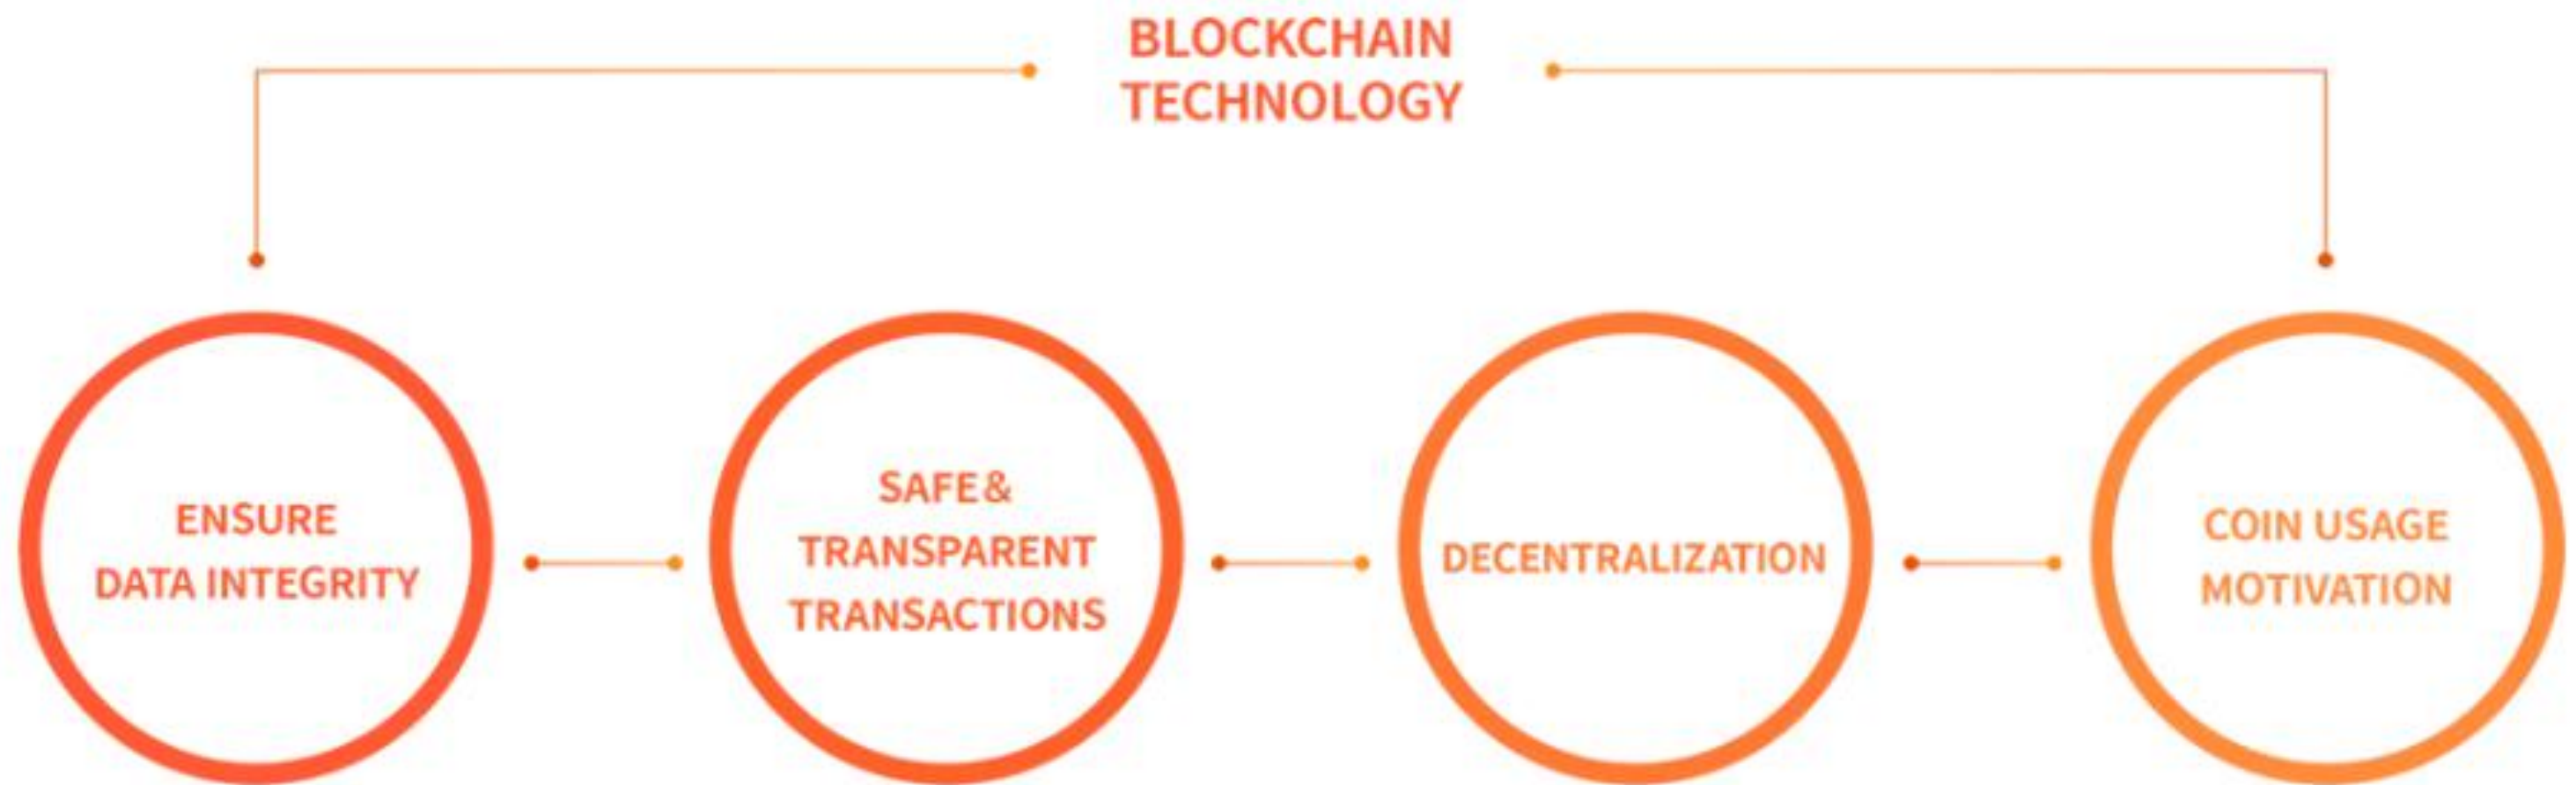

**MAKE
MONEY**

when sharing
anonymized data

**BE
IN CONTROL**

of your
data & identity

Why Blockchain?

Consumers

1. Get fast access to better healthcare
2. Control how their clinical data is accessed and by whom
3. Monetize anonymized clinical data

Providers

1. Increase efficiency of care delivery
2. Increase cost savings and ROI
3. Increase revenue with instant pay

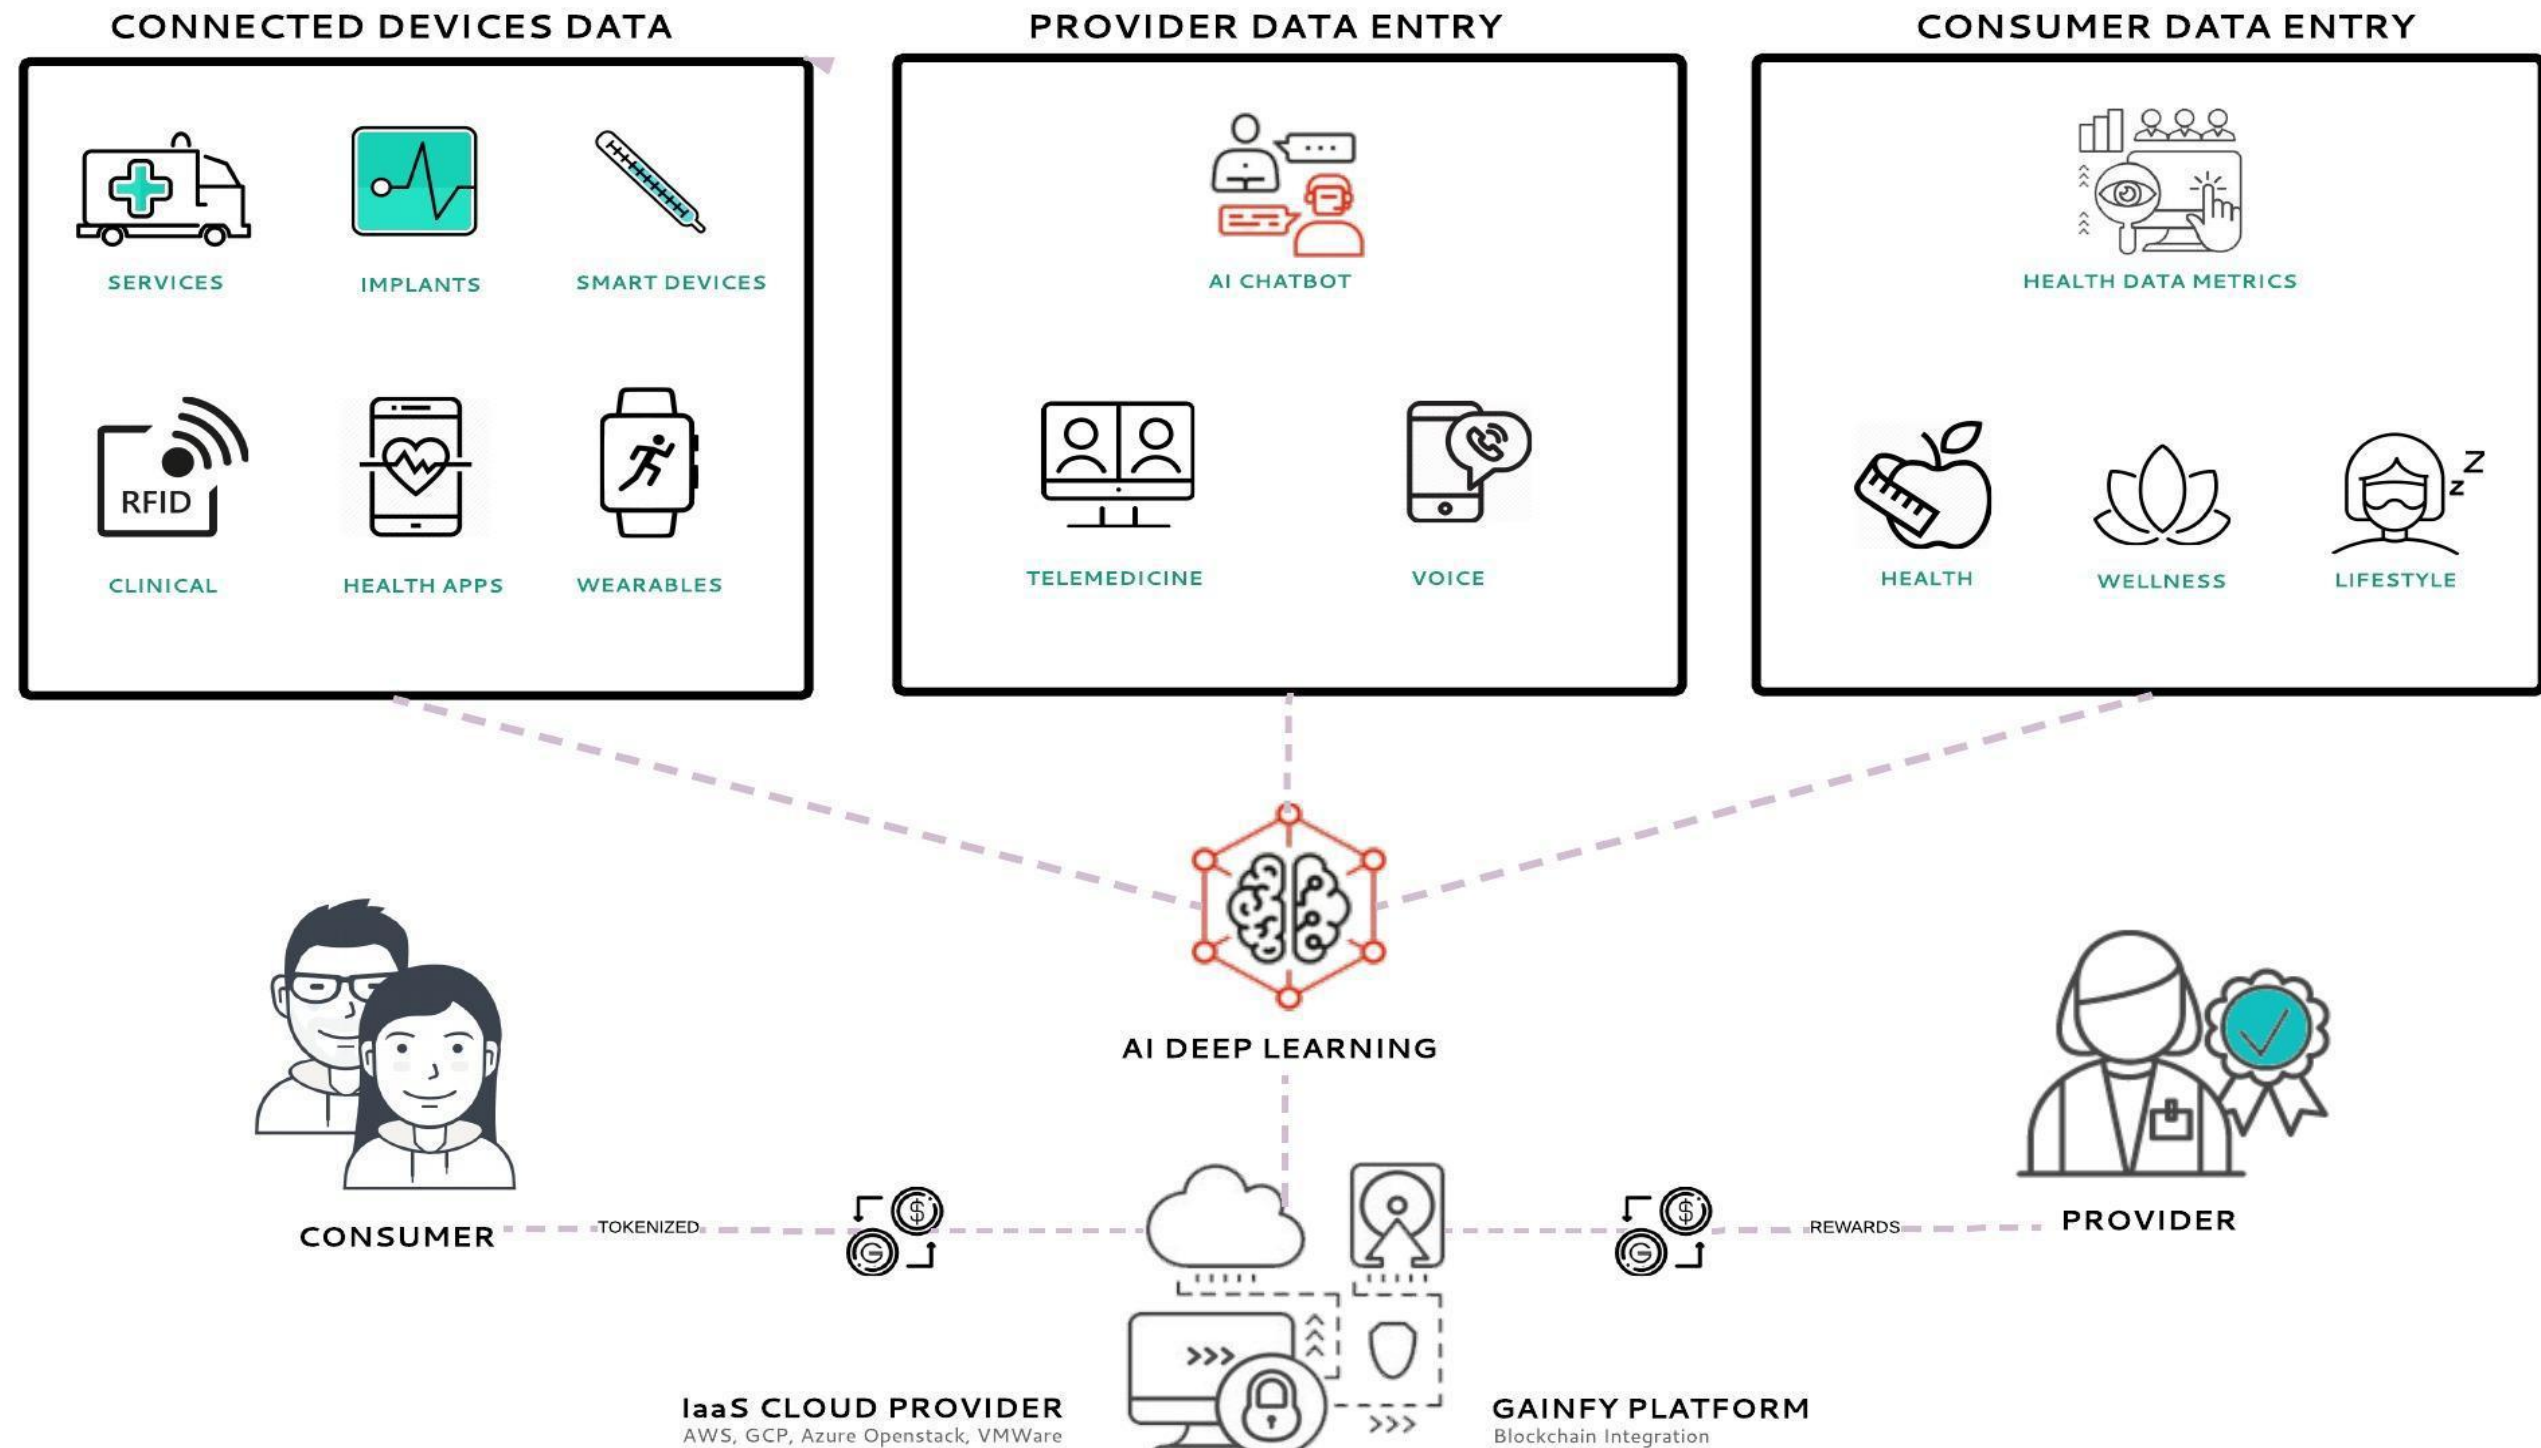

How is Gainfy is capitalizing on emerging technologies to improve people's lives and build successful company?

It all starts with Network Architecture

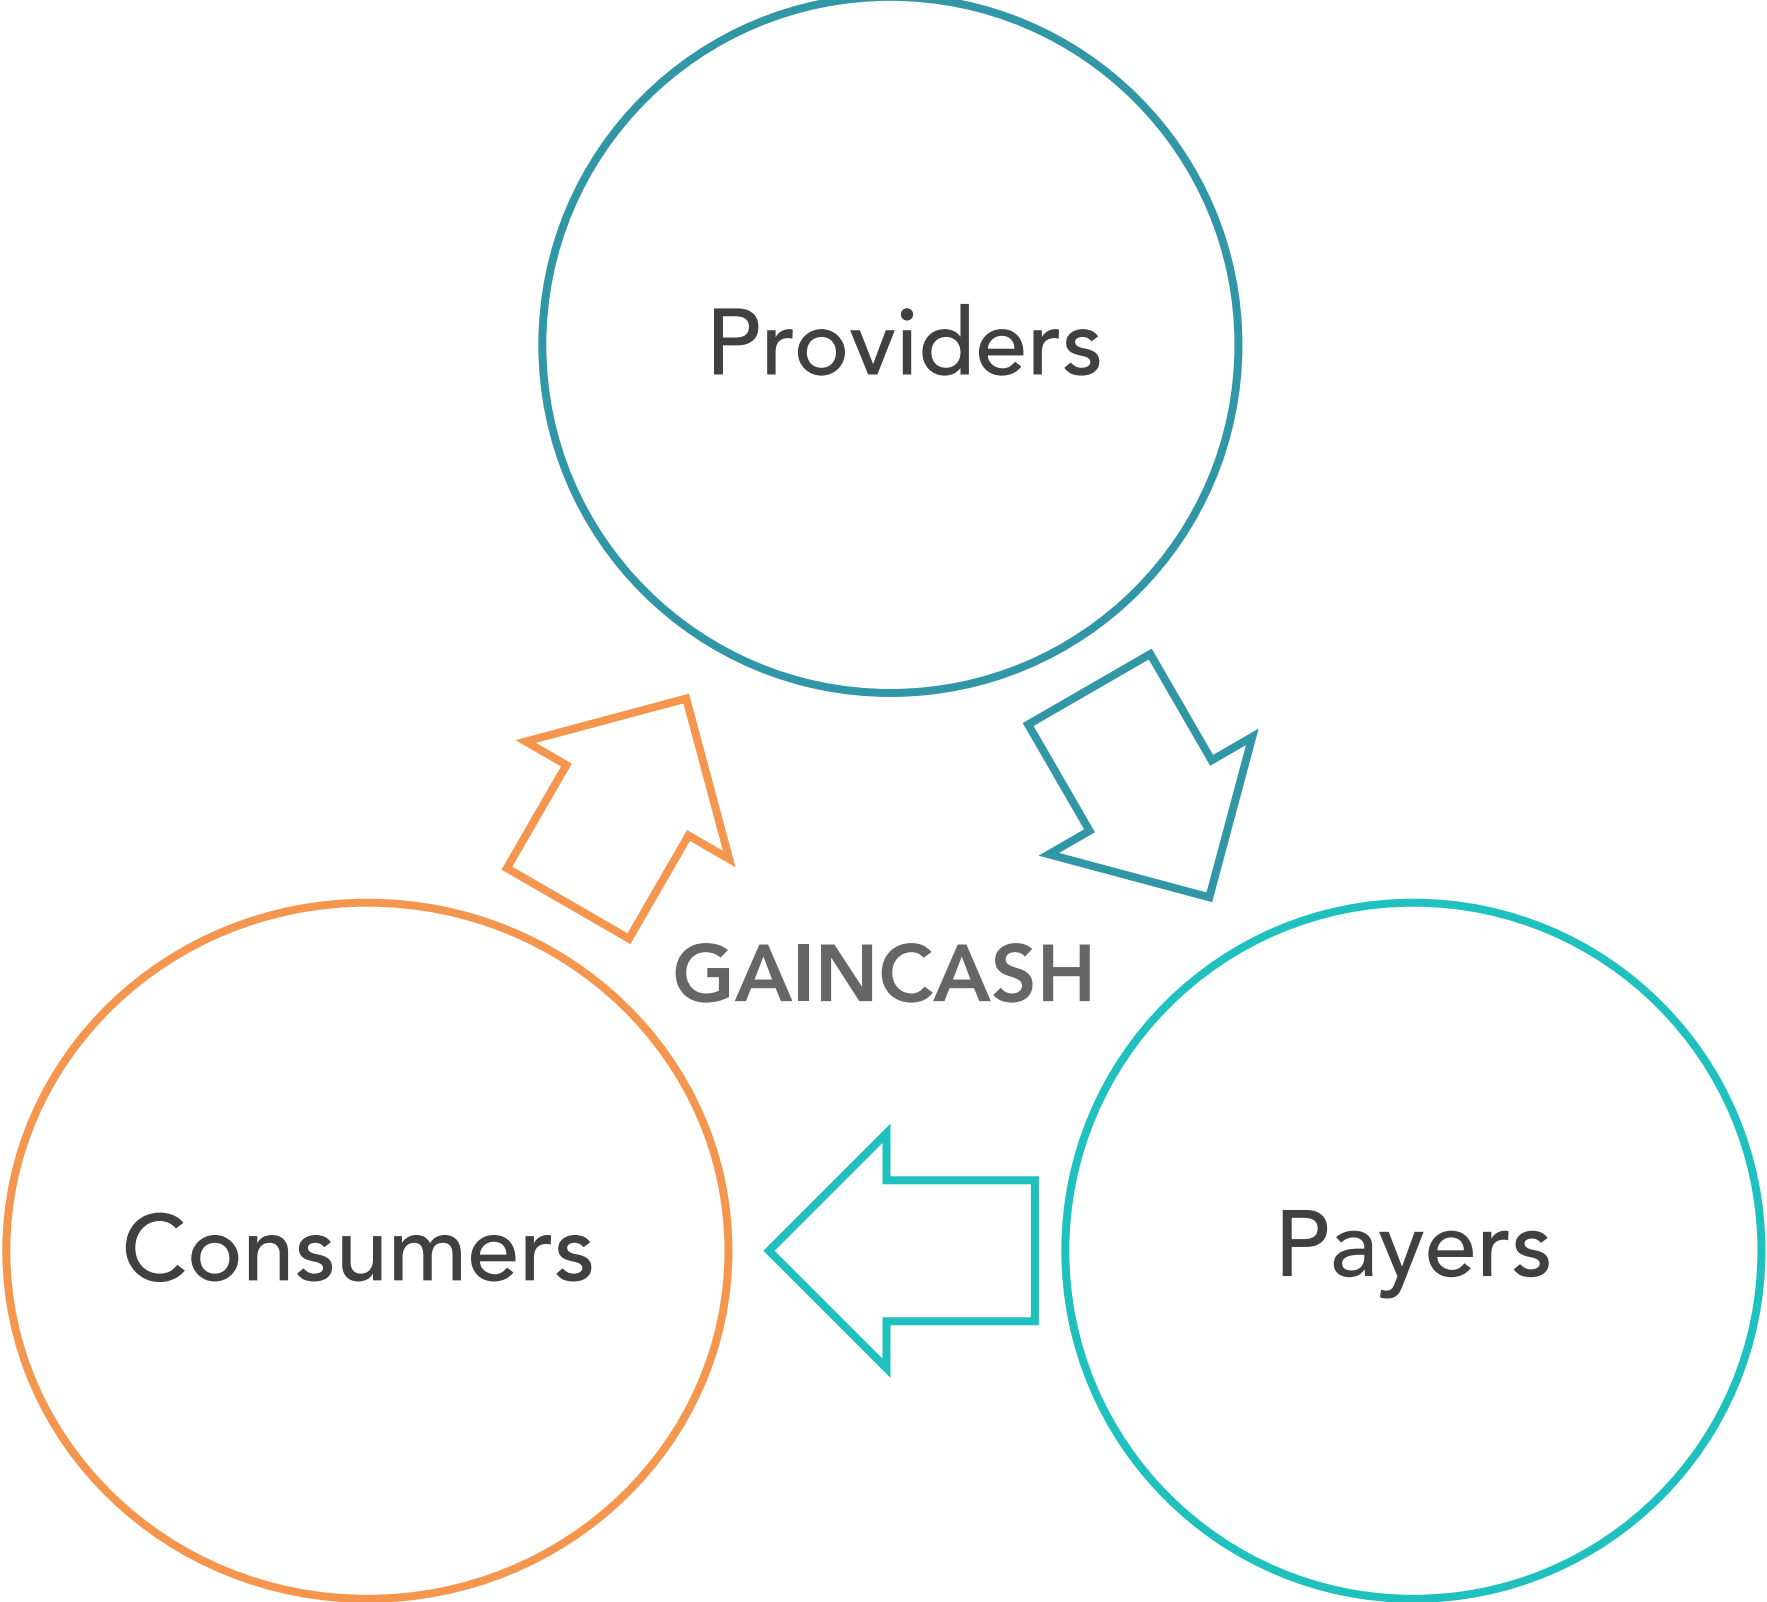

CHOICE is the key to successful data collection

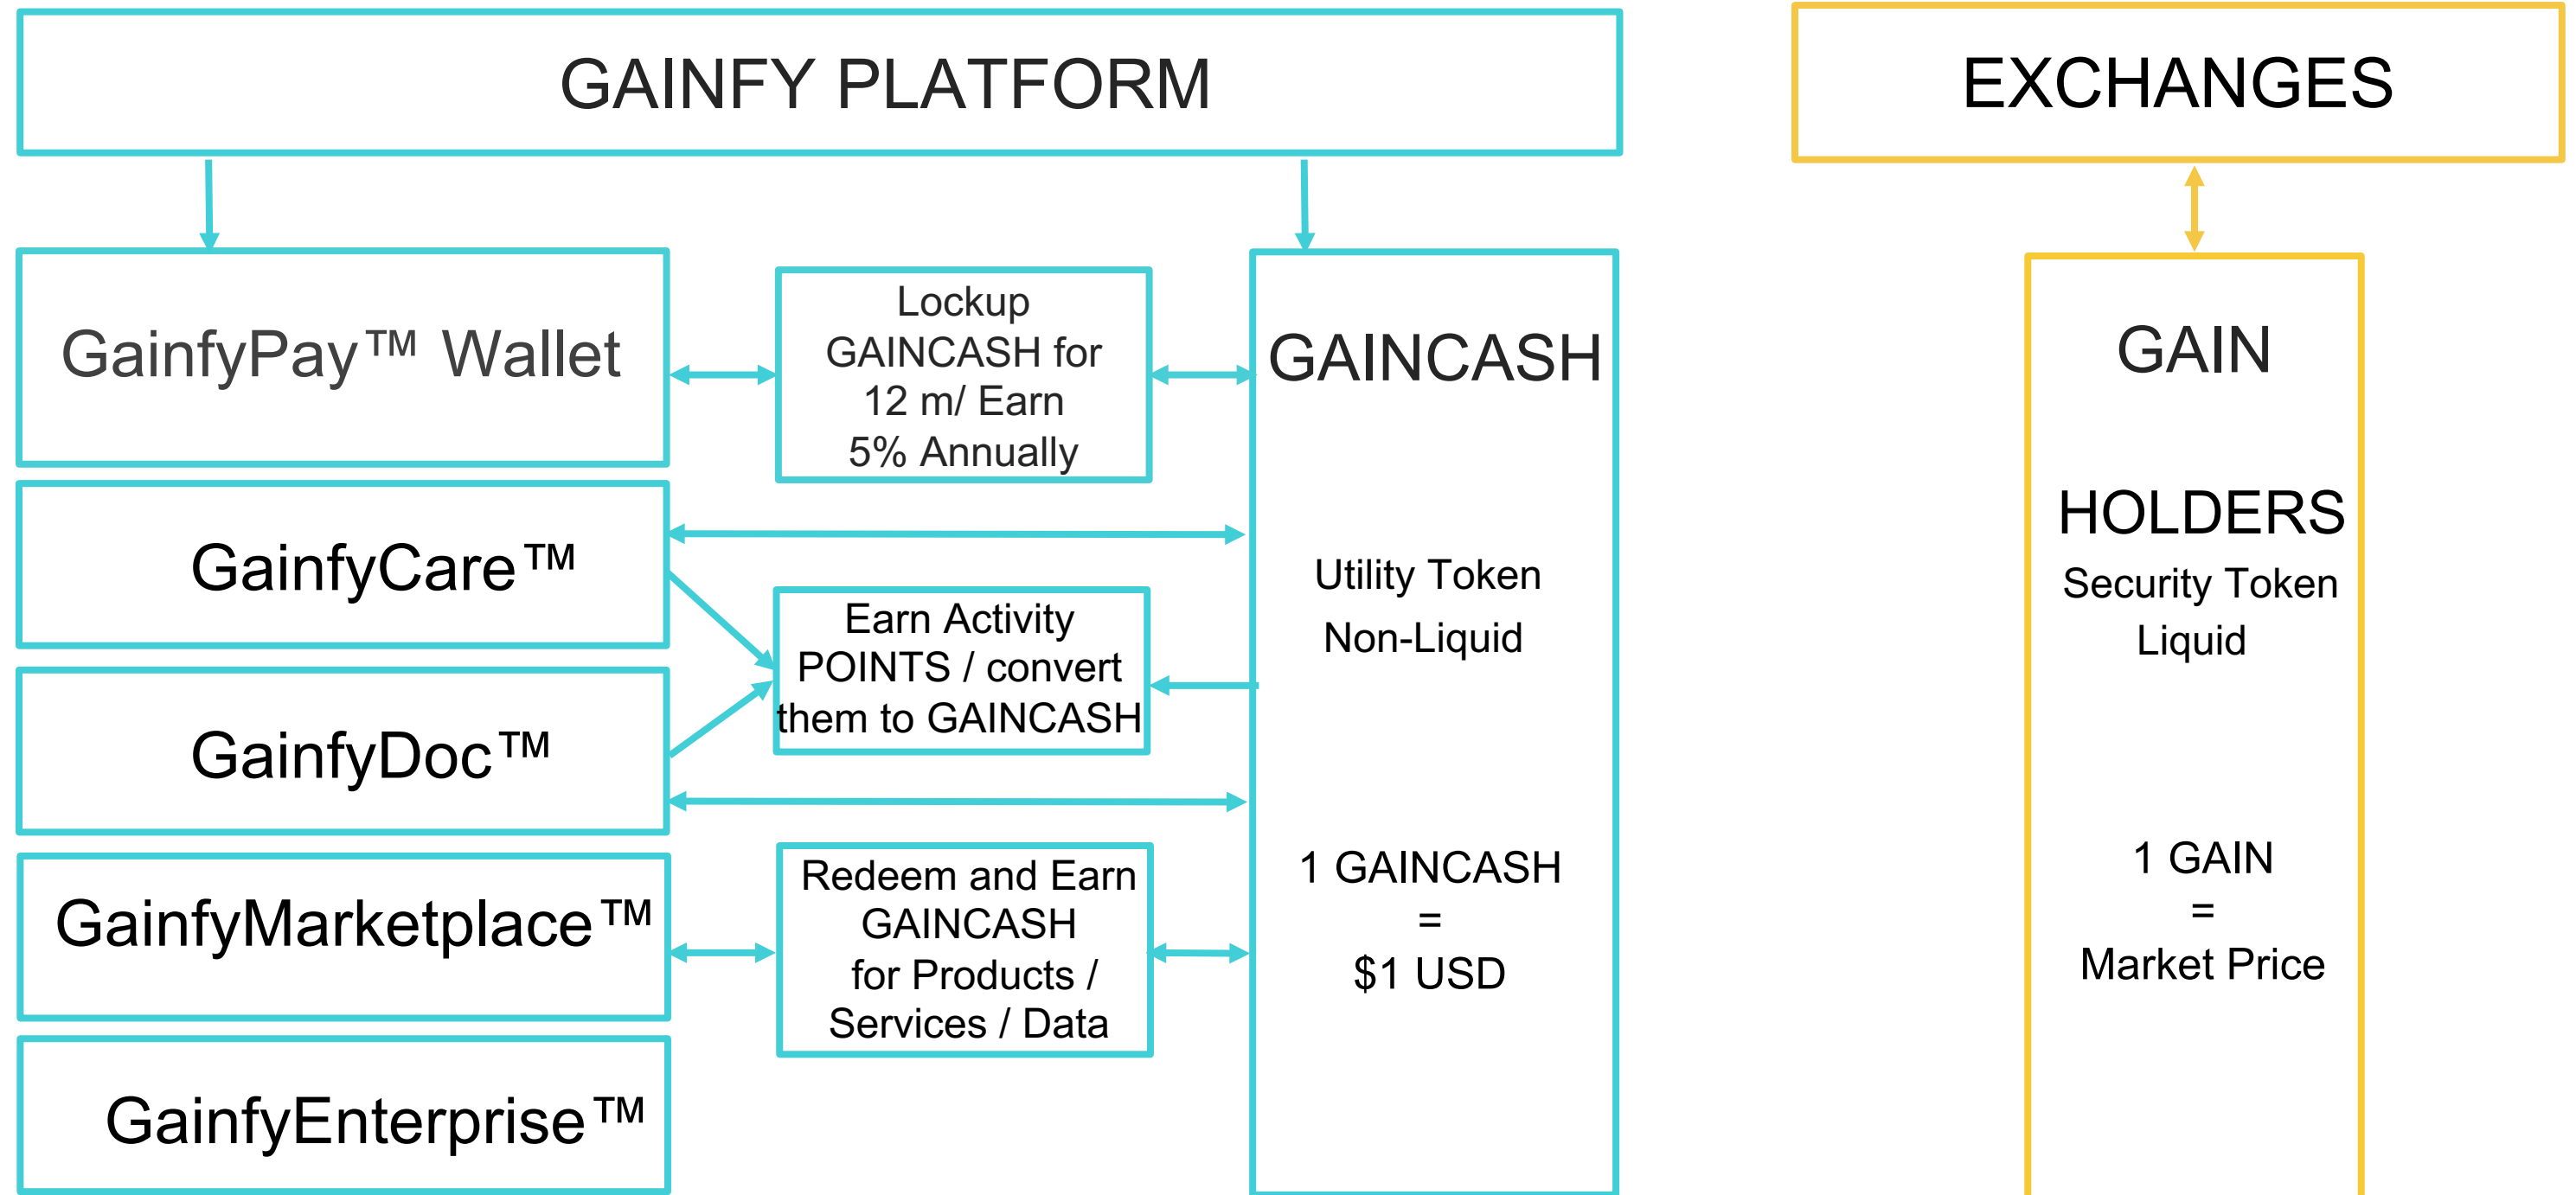

DEEP LEARNING is the key to better treatment

INCENTIVES are the key to active engagement

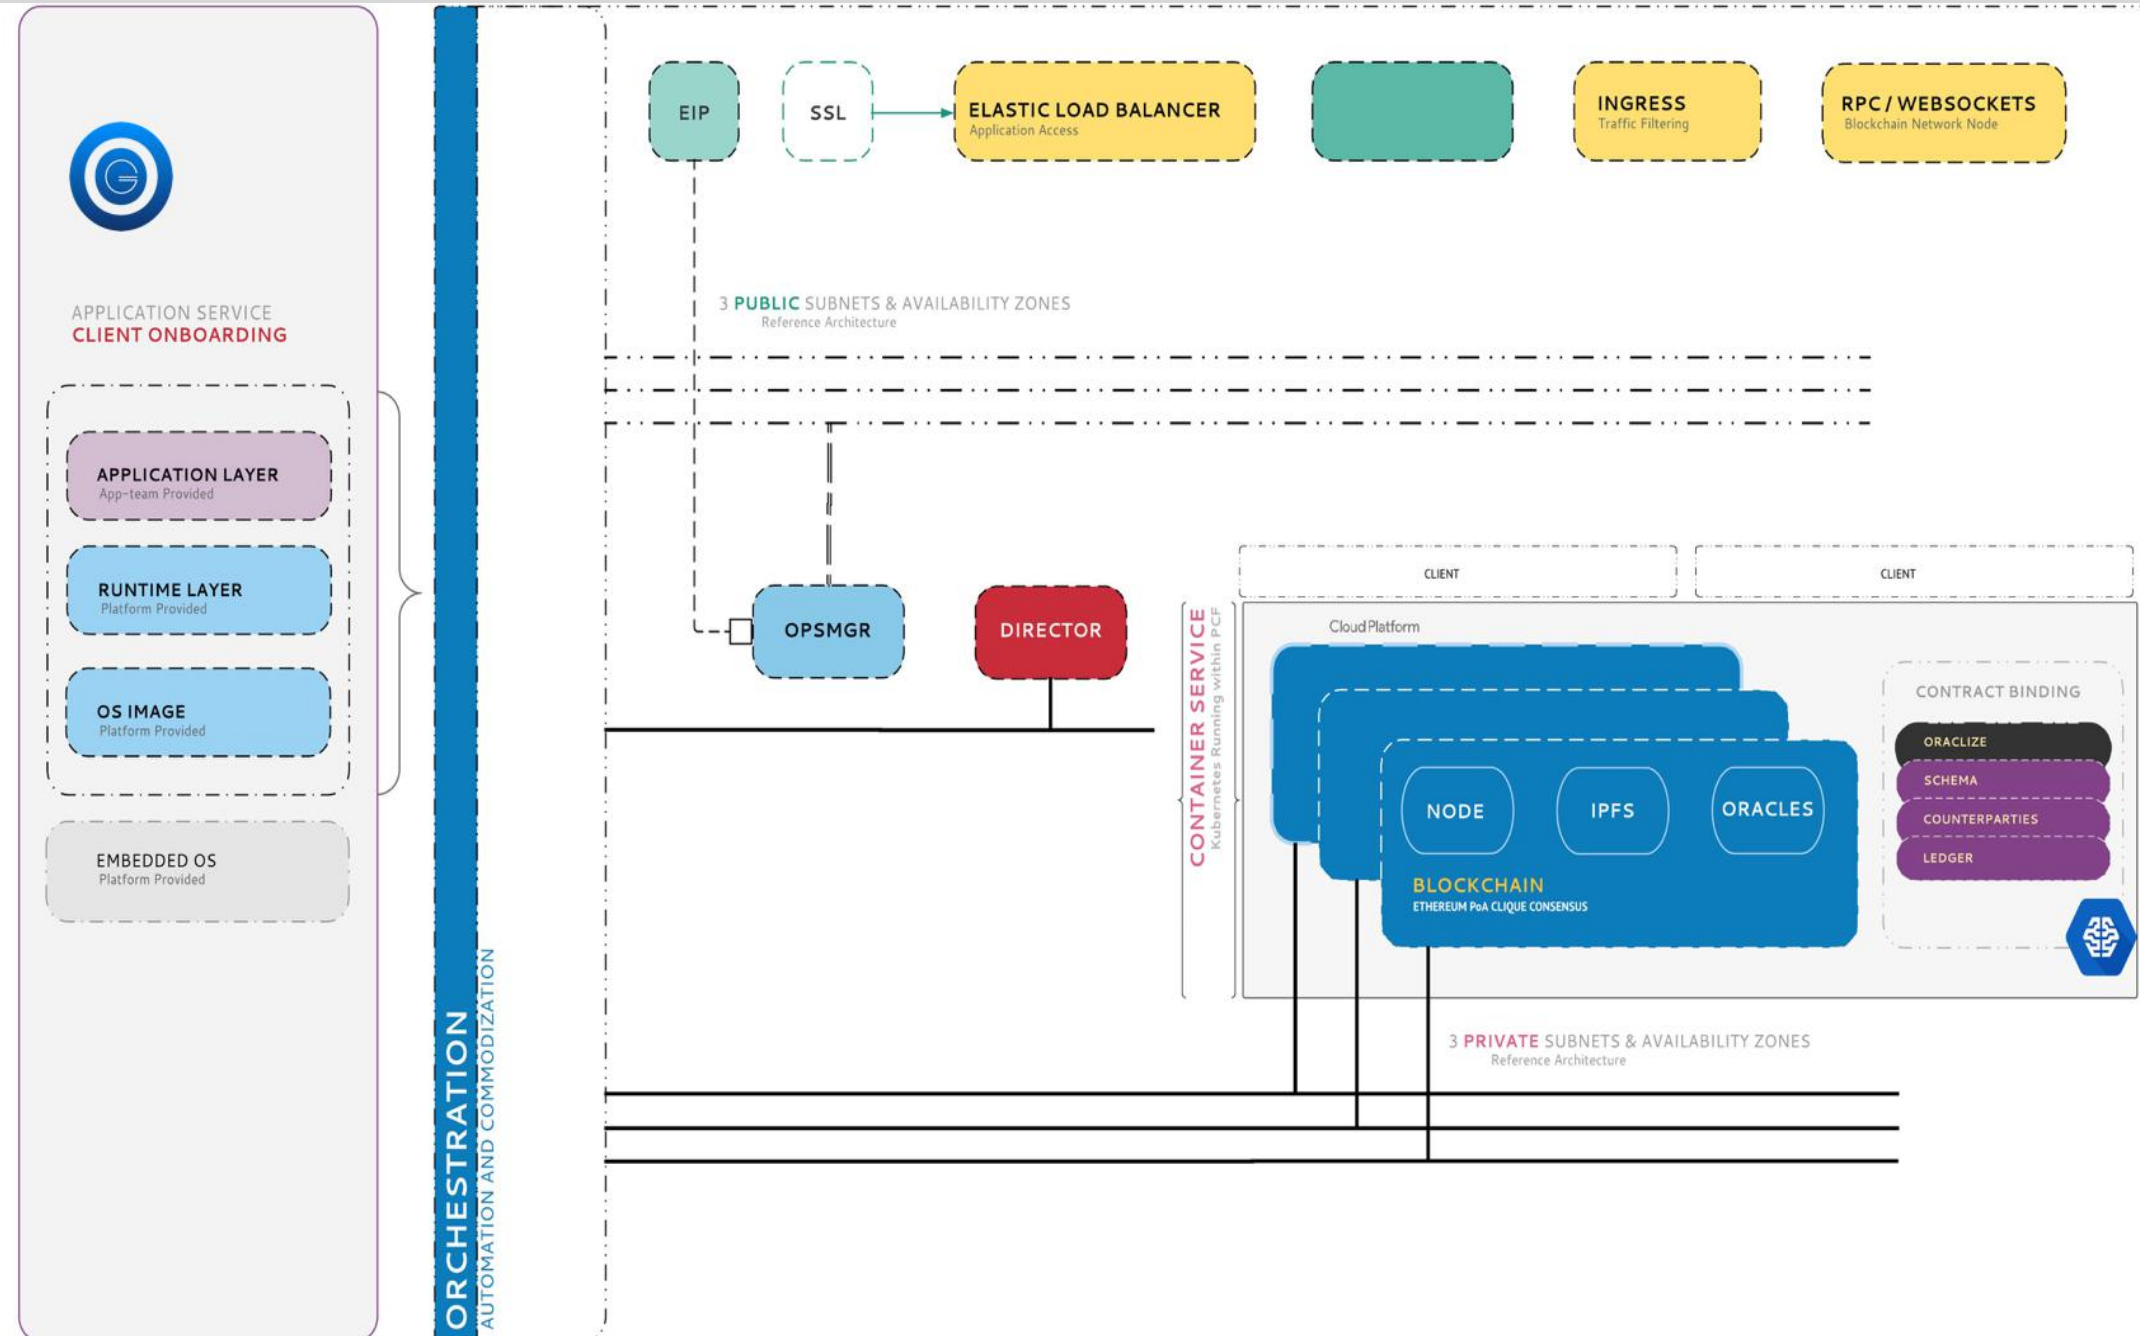

Token Structure and Platform Economics

Gainfy Proprietary Core Enterprise Platform

GainfyEnterprise™ is our proprietary blockchain platform that streamlines lifecycle management for healthcare institutions and their family of providers.

Bringing together Cloud Foundry and Kubernetes technologies, our platform facilitates data democratization with deep machine learning (AI) to improve medical care responsiveness, accelerate innovation and provide best-practices for security, reliability and performance.
